ADVANTAGES AND DISADVANTAGES

Advantages & Disadvantages :

✓ Advantages of CRM in Jewel Management

Benefit	Why It Matters
Customer Insights	Tracks preferences, purchase history, and loyalty for personalized service
Inventory Control	Real-time stock updates for gold, diamonds, and custom pieces
Sales Automation	Streamlines billing, invoicing, and order tracking
Marketing Efficiency	Enables targeted campaigns and promotions based on customer segments
Improved Customer Retention	Loyalty programs and timely follow-ups boost repeat purchases
Data Centralization	All customer and product data stored in one place for easy access and analysis
Enhanced Reporting	Dashboards provide insights into sales trends, inventory turnover, and customer behaviour

⚠ Disadvantages of CRM in Jewel Management

Challenge	Impact
High Implementation Cost	Custom CRM setups (e.g., Salesforce) can be expensive for small jewel businesses
Complex Customization	Jewellery workflows (repairs, custom orders) may require advanced configuration
Training Requirements	Staff may need time and resources to learn the system
Data Security Risks	Sensitive customer and product data must be protected from breaches
Over-Reliance on Automation	May reduce personal touch in high-value customer interactions
Integration Challenges	Connecting CRM with POS, accounting, and legacy systems can be technically demanding
Data Quality Issues	Inaccurate or outdated data can lead to poor decisions and customer dissatisfaction
